PRESS RELEASE

For immediate release

Tuesday 31 March 2026

London UK

WASP and IPU Group, together with Separ UK and MLA Filtration, are pleased to announce the launch of their new brand, unifying the business under a single new identity ‘WASP IPU’.

WASP IPU is a leader in fuel management, engine and machine control systems, filtration and fluid handling solutions. Providing full lifecycle support, the business supplies an established portfolio of leading international brands including Separ, Racor, Enovation Controls, Senquip, Donaldson, Baldwin and Murphy alongside its range of proprietary fuel polishing and fuel storage & handling solutions for the power generation industry.

The business serves major technology companies, civil and military government applications and critical infrastructure providers with operations based in the UK and a comprehensive international distribution network.
